

# BUBBLES!

## Materials:

- 6 cups of water
- 1 cup of dish soap
- 1 tablespoon of glycerin or 1/4 cup of corn syrup
- food coloring
- some wire, twist ties, or a bubble wand

## Activity:

Measure 6 cups of water into one container, add a few drops of food coloring, then pour 1 cup of dish soap into the water and slowly stir it until the soap is mixed in. Try not to let foam or bubbles form while you stir. Measure 1 tablespoon of glycerin or 1/4 cup of corn syrup and add it to the container. Stir the solution until it is mixed together. Use the wire or twist ties to create your own bubble wand, dip it in your solution, and blow! See how differently shaped wands change your bubbles... how big of a bubble can you blow?!
