

Dear Camp Families,

With the approach of Summer 2021, we want to let you know that we are taking steps to ensure a safe, healthy and fun camping season. We are planning our programming this summer in anticipation of the Governor of Virginia updating and allowing for overnight camps. Our staff team is continually utilizing several resources to adapt operations this season including: The American Camp Association, Virginia Department of Health, Association for Camp Nurses and the Center for Disease Control and Prevention. Our leadership team will be providing resources to help answer some of the questions you may have. (see below)

While there will be many changes this summer, one thing that won't change is the opportunity for campers to have positive life changing experiences. Campers are still going to try new things, make new friends, create lifelong memories, and gain the independence that comes from a week at 4-H Jr. Camp. Those experiences are the cornerstone of what 4-H is all about, so while some things may look different, please know that we are tirelessly combing over the details to make camp a safe and fun environment for camper growth this summer!

Thank you for your continued support and patience as we gear up for Summer. We hope that you will consider joining the fun in 2021! Please see the information provided and feel free to contact one of the 4-H Educational Centers or your local 4-H Unit for more information.

We look forward to serving you this Summer!

Thank you,

Virginia 4-H Camping Team
